FAX: _____

Facility Name: _____

Two day course, lunch and refreshments, AFO materials, exam textbooks and certification. Space is limited, please register early.

Cost: \$350.00

Please mail or fax registration form to Aquatic Specialty Services, Inc.

1605 South 93rd Street Unit EF, Seattle, WA 98108

Phone: 206-275-0694 Fax: 206-275-2229

Or visit www.aquaticspecialtyservices.com

COURSE CONTENT:

The Aquatic Facility Operator Course is an 18 hour training program specifically designed to meet the needs of those working in the public and semi-public recreational pool or water park facilities. The AFO program offers unique discussions on risk management, not usually directed towards operations personnel.

The course provides information and training for both supervisory and operation personnel. In depth instruction will be given on filtration, disinfection, water testing and treatment, design consideration, facility management, facility troubleshooting and much more.

The AFO certification course is the most comprehensive program available for those responsible for operating clean, safe, and efficient aquatic facilities.

DATE, TIME AND LOCATION:

March 22 & 23, 2012

Time 8:00-5:00

Aquatic Specialty Services, Inc
1605 South 93rd Street Unit EF, Seattle, WA 98108

BASIC COURSE AND MATERIALS:

\$350.00

MEALS:

Lunch and refreshments will be provided both days.

AFO CERTIFICATION:

The AFO test is administered from 4-6:00 PM on the last day of the course.

The material packaged consist of the following: AFO manual, prep Manual, Exam, Course handouts, Certificate and CEU form.

Upon successful completion of the AFO course and the 50-question exam, participants Will be officially certified by the National certification Board of NRPA. Certification is valid for three years and is renewable.

INSTRUCTORS:

Dan Richards

Aquatic Specialty Services, Inc.

Text content:

This course features the NRPA's Aquatic Facility Operator Manual, the most complete and comprehensive publication available on pool operations. Author Kent G. Williams combines wit and over 30 years of experience to clearly lead even the beginning pool manager through the often-complex processes in aquatic operations. The manual undergoes revision every three years to keep current with changing technology. The manual is user friendly and enjoyable to read.

*Manuals to be distributed prior to class date
