# FROM THE OWNER

To Our Valued Family, Friends and Partners,

The milestones just keep coming! Looking back on the last two decades, I am filled with pride and gratitude. Despite periods of profound economical and political adversity that tested both character and adaptability, our hard work and determination paid off - not only in terms of financial success, but in our unwavering dedication to the people and communities around the world whose lives are improved every day by the use of our equipment.

The last twenty years were defined by growth. The next twenty years will be fueled by momentum.

My father, Brian Goettlich, built this brand on quality and trust. It is my honor to carry on that tradition, the Montanan way - where a handshake still means something, and handcrafted, American-made products set the standard in our nation's manufacturing industry.

Sincerely,

*Krystal G.*

# DON'T JUST TAKE

Aqua Creek is the first manufacturer to offer pool lifts in **virtually any powder coat color you can imagine!** Having the ability to color our lifts to match the décor of aquatic environments or match school colors to help blend into the surroundings has drastically changed the design of aquatics. A pool lift no longer needs to look institutional, or stand out on a pool deck; it can now blend in and be beautiful too!

**Bruce Giffin**

*VP of Sales & Marketing, Aqua Creek Products*

# GET IT FROM US...

Aqua Creek is not merely an industry leader with respect to their ability to provide design professionals the necessary information to specify their product line; Aqua Creek is, in fact, the only company in their industry that is able to coalesce manufacturing excellence with superior client satisfaction and product documentation critical to the needs of design professionals.

**Dave Acklin**

*President, Aqua Design International*

## “I LOVE MY SPA LIFT! I DON’T KNOW HOW I WOULD MANAGE MY HEALTH WITHOUT IT.”

We have been pushing Aqua Creek Products for years now, and that’s for good reason. Not only is this easy on us, but also the end-user, with little to NO quality issues! Ease of ordering, personal assistance, and recommendations of products; you name it, they are there to help. I will go as far as switching a customer from another brand whenever I can for all these reasons. Thank you as always!!

**Julie Bell**
